Subject: Microsoft "settlement"

Dear All:

Unfortunately, my state's (Michigan) Attorney General was one of the AG's who caved into accepting the truly absurd DOJ/Microsoft "settlement".

I would like to applaud those of you who understand the law, and, more importantly, have demonstrated a rather refreshing amount of common sense by sticking to your guns and continuing your quest to serve Microsoft - a company that has and continues to practice illegal monopolistic business tactics and strong-arming - with appropriate punishment and justice.

It is completely evident that the remedies proposed and accepted thus far are hardly a punishment - some can even be considered a reward - and it is becoming increasingly clearer that Microsoft may be involved in racketeering and bribery. There is just no other way to explain these ridiculous, "slap-in-the-face" settlements.

For every consumer and for every professional firm like ours, I wish you the best and hope Microsoft finally receives its due - break them up!

Sincerely,
Jeffrey J. Kazmierski
